

we, the people, own the TV and Radio channels that we allow broadcasters to use. we, the people, have rules established for us by the Congress and expect that they will be enforced by the Administration. We have rules for participation of TV and Radio Station Owners in our national electoral campaigns. One of these rules is about to be broken by a Major controller of the media. Sinclair should be prohibited from intrusion of this powerful and biased message into the campaign in favor of Bush, using facilities owned by Bush and Kerry supporters. Sinclair should be stopped immediately and you my representatives in the Congress and the responsible Federal Agency should assure that this is done! Thank you. Harry Wettig
